

Site License Agreement

from Landes Bioscience for Use of the Electronic Versions of Landes Bioscience Journals and E-book Databases

Note: If your institution has already signed a site license for Landes Bioscience Journals and E-books, nothing further is required. You do not need to send a new license each time you renew your order.

Landes Bioscience at 1806 Rio Grande, Austin TX 78701 USA hereby grants

Name of Licensee

a nontransferable and nonexclusive annual right and license to access, receive, disseminate locally, and use the Licensed Material, as per the Registration Form attached to this Agreement, according to the procedures, terms, and conditions set forth in this Agreement; and with the signature below the Licensee accepts these terms.

1. Warranty of Publisher Right to Offer Resource

Landes Bioscience warrants to the Licensee that it is fully authorized to use, in accordance with the terms and conditions hereof, the Licensed Material; and that the Licensed Material, if used as contemplated in this License, does not in any known way infringe any copyright or other proprietary or intellectual property rights of any natural or legal person.

2. Scope of License

Access to an electronic database of articles from the Licensed Material will be made available to all Internet Protocol (IP) addresses within the domain of the Licensee, as described in the Registration Form at the end of this document. All members of the Licensee's campus or institutional community who are authorized to use the computers within this domain are deemed Authorized Users of the site license. Walk-ins are also deemed Authorized Users of the site license, but do not have remote access privileges. For an organization with locations in more than one city, each location is considered to be a separate site and would require separate license agreements unless a separate agreement can be negotiated between Landes Bioscience and the Licensee (with or without additional subscription fees being required by Landes Bioscience).

3. Access and Availability

Licensees will have perpetual access to content from the paid subscription year(s). Licensees will have access to back content not previously purchased by the Licensees with a current subscription only. Licensees are granted the right to use archival systems, including Portico, LOCKSS or CLOCKSS, for accessing perpetual access content.

Landes Bioscience, either directly or through a contractor, shall use all reasonable endeavors to make access available on a 24-hour basis. But if access is suspended or interrupted or a defect occurs that prevents access, Landes Bioscience's liability shall be limited to using all reasonable efforts to restore access as soon as is reasonably practicable.

4. Permitted Use and Prohibitions

Authorized Users may download, save, and print the Licensed Material from the database for their own noncommercial educational and research use, but may not further disseminate these articles in their electronic form without express written permission from Landes Bioscience. The Licensee will exercise reasonable efforts to ensure that access to and use of the Licensed Material is limited to Authorized Users.

Scholarly Sharing. Authorized Users may transmit to a third party in hard copy or electronically, minimal, insubstantial amounts of the Licensed Materials for personal use or scholarly, educational, or scientific research or professional use but in no case for resale or commercial purposes.

Interlibrary loan: A hard copy printed from the electronic files or the digital (PDF) version of the Licensed Material may be supplied to another institution by mail or fax or secure email transmission (including ARIEL).

Coursepacks: Copies for course or research use that are supplied to the end user at no cost may be made without explicit permission or fee. Copies that are provided to the end user for a copying fee may not be made without payment of a 5% permission fee to

Landes Bioscience or a waiver from our office.

Electronic reserves: Articles for course or research use that are supplied to the end user at no cost may be made without explicit permission or fee. Articles that are provided to the end user for a fee of any sort may not be made without payment of permission fees to Landes Bioscience. E-reserves should be posted on a secure site accessible to Authorized Users only, and articles purged from the e-reserve system at the end of each semester.

Fair Use. Nothing in this License shall in any way exclude, modify or affect any of Licensee's statutory or common law rights under the copyright laws of the United States.

5. Breach

Under ordinary circumstances, should a breach of this Agreement by the Licensee or an Authorized User come to the attention of Landes Bioscience, Landes Bioscience will inform the Licensee and provide a reasonable amount of time (ordinarily 30 days) for investigation and, if necessary, correction of the breach. But Landes Bioscience shall have the right immediately to suspend this License Agreement, without need for provision of proof, if it determines that the Licensee has committed a serious and material breach of the Agreement or one that is likely to continue. If it is feasible to cut off the access of a single offending user, rather than the entire institution, that will be done. If Landes Bioscience is in breach of this agreement, the Licensee will inform Landes Bioscience in writing and allow 30 days to mend the breach. If the breach is not cured, Licensee may terminate the agreement upon written notice and receive a pro-rated refund.

6. Changes to License

This Agreement constitutes the entire agreement and supersedes all prior communications, understandings, and agreements, until such time as modifications or amendments to the Agreement are mutually agreed to in writing and signed by the authorized representatives of both parties.

7. Usage Statistics

Landes Bioscience will make a reasonable effort to supply the Licensee with usage statistics in accordance with the guidelines of Project COUNTER.

Note: If your institution has already signed a site license for Landes Bioscience Journals and E-books, nothing further is required. You do not need to send a new license each time you renew your order.
