Editorial Note/Description of Journal

There is still much to accomplish in cancer treatment; consequently, there is a pressing need for another forum with important cancer research. *Cancer Biology & Therapy* is a new peer-reviewed journal that publishes original research on the molecular basis of cancer, including articles with translation relevance to diagnosis or therapy. The goal is to foster communication and the rapid exchange of information through expedient publication of important results, using traditional as well as electronic formats. *Cancer Biology & Therapy* will become essential to the cancer community, publishing outstanding original research, along with reviews, analyses, and opinion pieces on the ever increasing spectrum of cancer research. The world class editorial board will strive to maintain the highest standards of excellence in generating this valuable resource.

Display Advertising—Online

Visitors to the *Cancer Biology & Therapy* site include scientists in academia, industry and government from around the world, together with students, medical practitioners, journalists and industry managers. Whoever your target market, they can be reached efficiently and effectively with *Cancer Biology & Therapy*.

Your company can advertise at the *Cancer Biology & Therapy* website in two ways:

- banners
- TOC (Table of Contents) email sponsorship

Banners

Banners are a highly effective method of building brands and creating impact for your advertising message. They work most effectively when they are:

- targeted
- frequent
- animated
- updated regularly
- tied into a strong print campaign

TOC Email Sponsorship

Cancer Biology & Therapy has developed a valued TOC service which provides subscribers and registered users with regular updates on the latest content available online. These emails are especially popular because they are specifically requested by users.

Advertisers may incorporate an advertising message within these email in order to present your organization in the context of this high-quality, relevant and informative TOC.
